

SUMMER SKILL SPLASH

AIR FORCE SCHOOL BAGDOGRA

DAY- 7

Experiential learning involves learning from experience. This summer skill splash has proved to be a milestone for children where they have not only actively participated but have also reflected and learnt new methods based on their experience. It has truly bridged the gap between theories and practices.

Exciting enhancement continues....

Seventh day of the summer skill splash was devoted to culinary skill enhancement with a dash of Vedic maths for added flavor .

Junior Chef in action

Junior Chef in action
